The one with the bite...

Weedwipers

Why are weedwipers so effective? A concentrated targeted approach means weeds die while valuable pastures are protected, less chemicals are used, and with efficient time and cost savings.

Adjustable wing wheels

To minimise skidding & catching.

Durable & Strong

Strong boxed Steel construction - hot dipped galvanised

Robust 50L tank & 12v pump

With either on/off or timer switch options

Bruise Bar

To damage weeds and allow for better chemical penetration.

Steel braced double wiping wicks

For better chemical-to-weed contact & reduced on-going cost.

2.4m, 4.8m, 6.2m sizes available. Other sizes made to order.

Visit www.redback.co.nz to view videos, case studies & reviews
